

Pipe Maker Job Description:

Expectations/General Requirements:

- Must have good attendance.
- Must be a team player and willing to help in all departments as needed.
- Must be able to sit for long periods of time and stand when needed.
- Good eye/hand coordination with steady hand; good vision is needed.
- Able to work without constant supervision.
- Willing to be trained and follow directions, reading job sheet carefully.

Will learn to solder seams on pipes with our training. The soldering iron is heavy, so arm strength is helpful.

Max lift weight is 50# and will have help anytime it is asked for! This will be basically changing the mandrels and usually the larger ones are changed with two employees.

We want someone that would like to learn a trade, not just do a job. We're looking for someone willing to come to work everyday and work with others toward the common goal of pleasing our customers. Our products are all made by hand and require patience and perseverance to meet the customer's specifications.

At this time, we offer Health, Dental and Life insurance to our employees, if they choose to accept. AFLAC and VSP vision are available, but are paid for 100% by the employee. We also offer 401 (k) after a years' service and have reached the age of 21.
